SKILLS

- Languages:** Python, C, C++, Java
- Data Science:** Numpy, Pandas, Scikit-learn, EDA
- Visualization:** Matplotlib, Seaborn, Excel, Power BI
- Database:** MySQL Platform
- Web Technologies:** HTML, CSS, JavaScript
- Core Competencies:** Data Structure Algorithms, Problem-Solving
- Soft Skills:** Problem-Solving, Team Player, Adaptability

PROJECTS

Product Purchase Likelihood Prediction | GitHub

May' 25 – Jun' 25

- Built a classification model in Python, including data cleaning and preprocessing on 200+ customer records.
- Identified critical features time on website, age, previous purchases impacting customer conversion through feature importance analysis.
- Deployed the model using an interactive Gradio application to provide strategic, data-driven insights for marketing optimization.
- Tech:** Python, Machine Learning Classification, Scikit-learn, Gradio.

Commodity Price Trend Analysis & Market Visualization | GitHub

Jan' 20 – May' 25

- Analyzed 7,000+ commodity price records across multiple Indian markets to identify regional price trends and distribution patterns for commodities such as Tomato and Turmeric.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Python to understand price fluctuations and market variations.
- Developed visualizations in Python and Excel to present key metrics including Minimum, Maximum, and Modal Prices by state and commodity. Visualized to showcase key metrics Min, Max, Modal Price by State and commodity
- Generated data-driven insights to support better procurement planning and inventory management decisions.
- Tech:** Python, Pandas, Matplotlib, Seaborn, Excel.

TRAINING

CipherSchools

Jun' 20 – Jul' 25

- Completed a summer training program in Machine Learning and Data Science.
- Performed data cleaning and feature engineering on customer records.
- Developed a Product Purchase Likelihood Predictor as a capstone project, applying supervised learning techniques learned during the training.
- Key Skills:** Python, Pandas, Scikit-learn, Classification, Feature Engineering, Gradio Model Deployment.

CERTIFICATES

- Digital Skills: Social Media – Accenture | [Link](#) Mar' 26
- Data Analytics Job Simulation – Deloitte | [Link](#) Dec' 25
- Master Generative AI & Generative AI tools ChatGPT & more – Infosys springboard | [Link](#) Aug' 25
- Privacy and Security in Online SocialMedia – NPTEL | [Link](#) May' 25
- Responsive Web Design – FreeCodeCamp | [Link](#) Dec' 23

ACHIEVEMENT

Qualified Final Round in the Hackathon Code Of Duty:

Participated and ranked in the Hackathon | [Link](#)

Mar' 24

EDUCATION

- Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.12 Since Aug' 23
- Tirumala Junior College** Rajahmundry, Andhra Pradesh
Intermediate; Percentage: 84% Jun' 21 – May' 23
- Sri Prakash Vidya Niketan** Payakaraopeta, Andhra Pradesh
SSC; Percentage: 99% Jun' 20 – May' 21
